

New Trends in Analysis, Geometry and Physics

Celebrating the 50th Anniversary of the
Department of Mathematics of CINVESTAV

Departamento
de Matemáticas

Aniversario
1961-2011

18 – 19 August 2011

Department of Mathematics, Cinvestav

Querétaro Campus

Real de Juriquilla, Querétaro, Qro. MEXICO

A conversation among mathematicians and physicists on the latest developments in

- Dynamical Systems
 - Fractional Diffusion Equations
 - Non-Archimedean Spectral Theory
 - Algebraic Geometry
 - Quantum Gravity
 - Quantum Field Theory
 - Ultrametric Analysis
- among others.

Speakers

- Anatoly N. Kochubei (key speaker), Institute of Mathematics, N.A.S. of Ukraine
- Hugo García-Compeán, Cinvestav, Mexico
- Tim Gendron, U.N.A.M.-Cuernavaca
- Benjamin Itza, CIMA-Pachuca
- Ernesto Lupercio, Cinvestav-Mexico City
- Jacob Mostovoy, Cinvestav-Mexico City
- Robert Oeckl, U.N.A.M.-Morelia
- Jeanneth Galeano, Cinvestav- Querétaro
- John Jaime Rodriguez Vega, U.N., Colombia

Michael Porter
Sergii Torba
Wilson Zúñiga
